

CLEAR SIGHT NETWORKS ROLLS OUT NEW WEBSITE

Easier Navigation Plus Many New Features for Partners and Customers

Fremont, California, July 7, 2008 – ClearSight Networks announces the roll out of its new website at www.clearsightnet.com, providing vastly enhanced navigation and a host of new features that benefit ClearSight's partners and customers.

You can now get almost anywhere on the site directly from the home page. Each of the top-level categories Solutions, Products&Training, Support, Resources, Partners, Company, and News has a drop-down list that appears when you roll over the category name.

You can jump to success stories directly from the Customer Spotlight section on the home page. This provides potential customers with more confidence that ClearSight is a company with products that are recognized and used by major corporations around the world.

The Home page also provides a link directly to the ClearSight Analyzer free trial download, and the registration process has been streamlined. The process for getting a license key or a software upgrade can now be done directly on the website, a feature previously available only by email. The number of formats available for downloaded documents has been expanded we now support .wav, .rmvb, .mp3, .midi, .doc, .pdf, .rar, and .zip.

On the Support > FAQ page, there is a search box where you can enter a key word or phrase and search the entire site for related material.

On the completely revamped Partners > Partner Login page, our sales and channel partners can easily find marketing collateral, software updates, and additional product downloads.

Improved website management tools provide these additional features that are not noticeable on the website, but that will greatly simplify website updating and management, and will enable us to release products faster and more easily: The partner login can be structured with a variety of permissions, so that various partners can securely access privileged matter, while it is protected from unauthorized access by others.

Visit us at www.clearsightnet.com today and email us your impressions of the new web site. If you have any questions and/or comments, please do not hesitate to contact us at marketing@clearsightnet.com.
